Donald A. Ullrich, 133 North Washington street, Lincoln school teacher and athletic coach and Navy veteran of World War II, was elected executive secretary of the Adams County Sesqui-Centennial association at the group's May meeting Thursday evening at the court house.

Mr. Ullrich whose chief duty will be to coordinate the work of the many Sesqui committees will begin his services June 1. The county commissioners have provided office space for the Sesqui organization in the arbitration room on the first floor of the court house. His election followed a recommendation of the Sesqui executive committee.

The Sesqui committee, with Chairman Leighton C. Taylor presiding, heard reports Thursday evening from committee and division heads on the progress of preparations for the celebration to be held from Wednesday, August 30, through Monday, September 4.

The historical pageant will be presented by a cast of 400 or more participants on Wednesday, Thursday, Friday and Saturday evenings on the Gettysburg college athletic field. Thursday has been designated as Governor's Day; Friday, School and Athletic Day; Saturday, Sesqui Parade and Veterans' Day; Sunday, Homecoming Day with all county churches encouraged to plan special homecoming services, and Monday, County Firemen's Day when the annual county firemen's convention will be held at Cashtown.

David M. DeTar, New Oxford, finance division chairman, presented a report showing that New Oxford is the only community in the county which has completed its Sesqui underwriting campaign. A total of \$1,300 toward underwriting Sesqui costs was pledged there. The Gettysburg committee is at work this week, the group was told.

Expect Big Crowd For Alumni Dinner

Burgess Announces Lifting Of Most One-Way Traffic Rules; Press And Public Are Blamed

Here And There News Collected At Random

The statement of Burgess William G. Weaver announcing the lifting of one-way traffic and no parking restrictions with some reservations, in which he states "The experimental nature of the action was not given publicity" is erroneous and not based on fact.

Again when Burgess Weaver declares in his typewritten statement that the "cooperation of the public and press was lacking" he makes another misstatement which will not be accepted by those who are familiar with the facts. And the Burgess should be familiar with the facts because we believe that he has read every article with reference to the traffic and parking regulations published in The Gettysburg Times.

We challenge Burgess Weaver, and anyone else who may have had anything to do with prompting him to issue the condemnation of the press, to come to the office of The Gettysburg Times and check the files carefully and ascertain just how much publicity was given the council in its newest and now rescinded regulations.

If the Burgess is referring to the recent "Here and There" column with reference to the regulations he is urged to read it again to learn that it was the opinions of aroused businessmen and the purported quote of a councilman giving the reason why the regulations were put into effect.

The Burgess has done The Gettysburg Times an injustice by falsely accusing the press of not cooperating. The truth of the matter is that most of the notification the public had of the council's action was through the news columns of The Gettysburg Times.

This newspaper has always cooperated with the council and every worthwhile community and county project. That statement defies challenge. Our service to the public is a matter of public record. Our files are open to the public. The people of Gettysburg and Adams county subscribe to The Gettysburg Times to read the news. And they are going to read the news, too.

The errors of commission and omission of others are not our responsibility. We don't make news. We print the news other people make.

Scores and scores of aroused and angered merchants and others have pleaded with us during recent weeks to "go after the council and the safety committee" and arouse the public against what they called "these silly regulations." We remained silent. We had published that the regulations were on trial for 60 days. If in that period they were not suited to our local problems, we would have said so. Is that cooperation?

Time magazine, in its May 15 edition, reports the following in its public relations column "Meet The Press."

Many a businessman blames newsmen for the bad press business often gets. Many a reporter puts the blame on businessmen. Who is right? Last week, William M. Pinkerton, an ex-newsmen (Omaha World Record, Kansas City Star, etc.), now director of the Harvard News Office, put most of the blame on businessmen. Writing in the May issue of the Harvard Business Review, he argued that reporters can be trusted to get things right as long as businessmen tell them the facts.

To help business get a better press, Newsman Pinkerton drafted a few rules for businessmen to keep under the glass tops of their desks. The most important:

"Put an officer in charge of press relations and give him authority to speak for the company."

"If a newspaper digs up an exclusive story, don't pass it on to other papers, because 'the city editor's hunch and the individual reporter's lead are their own property.'"

"Don't mislead reporters: 'If (Please Turn to Page 8)

What was intended to have been a 60-day trial period for the new ordinances, which went into effect on May 1 setting up several one-way streets in Gettysburg, and restricting parking on others, came to an abrupt end for most of the regulations today, 34 days short of the time limit.

North and South Washington streets, North Stratton street, South street and Breckenridge street this afternoon were two-way streets again, with traffic allowed to flow in either direction. The borough highway department under the direction of Borough Engineer LeRoy H. Winebrenner, and on orders from Burgess William G. Weaver, began the removal of the one-way signs this morning.

Blames Public, Press
Weaver said "cooperation of the public and press was lacking."

"No-Parking" signs were removed in the first two blocks of South Washington street, and from East High street, except in front of the High street school. "Relief Route" signs placed earlier this week were also taken down, and will be replaced with signs reading "Truck Route."

One-way traffic will continue on High street, East from Baltimore to South Stratton street, and on South Stratton to York street. Other restricted parking regulations will remain in force.

The death knell of the one-way streets, with the exception of High and South Stratton streets, was sounded at a secret meeting Thursday night about which members of the borough council refused to comment. One councilman placed the blame on the safety committee, of which he is not a member. He was said to have been present at the meeting, however.

"Informal Action"
"It's in the hands of the Burgess to give you the news," this councilman declared.

Burgess Weaver this morning handed newspaper reporters a typed statement of the changes in the traffic regulations, but refused to say where the meeting was held or who was present.

"That's under the hat," he said, when questioned today. "It was an informal action, at just a get-together," he added. "It was not a meeting of the council." The statement given the press was signed by "W. G. Weaver, Burgess."

The ordinances were adopted at a March 20 meeting of the council. In spite of protests made by residents and businessmen at the April meeting, council decided to go through with the "experiment." The ordinances are still on the books and have not been rescinded. The only way they can be rescinded is by another ordinance or by court order, a reliable source said today. However, this source said, taking down the signs would prevent enforcement of the ordinances.

TROLLEY RAMS GAS TRUCK; 33 DIE IN FLAMES

Chicago, May 26 (AP)—A wall of fire enveloped a crowded street car after it struck a double trailer gasoline truck last night and 33 persons perished in the flames.

Thirty others were injured, at least three critically. About 20 remained in hospitals. Many of the dead and injured were negroes.

The spreading flames from the thousands of gallons of gasoline in the huge truck set fire to eight two-story buildings and several automobiles. No bodies were found in the wrecked buildings. But more than 100 persons—mostly negroes—were made homeless.

The accident occurred near the end of the evening rush hour—6:30 p.m. (EST)—near the heavily populated 63rd and State street district, on the city's south side.

Panic Follows Crash

The crash and a deep roar were followed by black smoke and billowing flames that surged along State street like flood waters.

Panic followed the crash. There was terror and confusion at the scene long into the night. Thirty-three pieces of fire equipment answered the extra-alarm fire. Four hundred policemen were on duty.

Traffic snarled as more than 29,000 persons milled in the vicinity, flocking to the scene of Chicago's worst street car accident.

The frantic, trapped passengers screamed hysterically as they fought to flee from the flaming street car. Thirty-two of the estimated 48 passengers burned to death, their lives snuffed out in a matter of minutes after the collision. Many of their bodies were piled in a charred mass at the rear doors.

Driver Dies In Cab

The truck driver perished in the cab of his truck. It was loaded with between 7,000 and 8,000 gallons of gasoline.

Interstate League

One of those crucial pitches went wide of the mark and walked in a game-winning run for the Sunbury Athletics over Allentown last night in the Interstate league.

Left handed hitter Jerry Cline was the batter who watched relief hurler Willard Schmidt's fourth miss go by with the score tied, two out and the bases loaded in the ninth inning. Allentown had led 2-1 as the final game opened, but Sunbury's "Babe" Halabuk evaded things with a left field homer off Bob Vogel of the Cardinals, who was relieved by Cline.

League-leading Hagerstown meanwhile climbed three full games above Wilmington, holding second place with its second victory in a row over Trenton. The game, played at Hagerstown, wound up 12-2.

York's White Roses made it two straight over Wilmington, beating them 8-6 at York. The Roses backed air-tight relief pitching by Jake Thies and Bill Stratton with a 12-hit attack, including a two-run triple by Duane Eckert. The Lancaster at Harrisburg game was called in the first half of the third inning because of rain.

Sports Roundup

By HUGH FULLERTON, JR.

New York, May 26 (AP)—You can't say those Dodgers aren't right up to date. . . . Take that goofy play Wednesday night, for instance, when Gil Hodges and Jackie Robinson thundered down on the plate together. The rule under which Jackie was declared out had only been in the book for two days. . . . When the rules interpretation committee met May 4, they found a long-standing interference rule had been overlooked in re-writing the code for 1950. So they came up with "7-09 (D) the penalty provided by this rule shall be inflicted on any batter or base runner who has just been retired and who obstructs or interferes with any following play being made on a base runner. The base runner shall be declared out for the interference of his teammate or teammates." . . . This was sent out in a bulletin from the commissioner's office with a note that the interpretations were to go into effect not later than May 22. . . . and, it seems, not a minute too soon.

BROWN STUDY
This happened a few years ago, so Paul Brown can get a chuckle out of it now. . . . The Cleveland Browns coach is father of three lively and football-minded sons, Robin, Mike and Pete. . . . When Mike was five years old, he tried to emulate a comic strip favorite by tying a sheet to the foot of his bed and climbing out a second-story window. . . . He lost his grip and broke a leg when he hit the ground. . . . When the distraught parent was summoned to the hospital, Mike greeted him: "Dad, I'll bet you glad it was me instead of Horace Gildum." . . . Gildum, you know, was Brown's star fullback.

ONE-MINUTE SPORTS PAGE
Jim Fuchs, Yale's record smashing shotputter, hopes to double up on records at the ICA meet this week-end. He's slated to finish an examination at noon each day and is due to start throwing the discus at Randall's Island at 3 o'clock on Friday and on 2 on Saturday. . . . Ed McKeever, the smiling Irishman from Louisiana State, is in town to "see a ball game and move on." . . . Move on, no doubt to places where they grow bigger and better football players. . . . Since Billy Hoelt, 18-year-old Oshkosh, Wis., high school pitcher struck out 27 Hartford high batsmen and issued no walks in a nine-inning game, a dozen major league scouts have boosted the bonus bidding to \$40,000. But Milwaukee's Jake Flowers keeps telling the kid not to become a bonus player.

Today's Talk

By GEORGE MATTHEW ADAMS

SUBSTANCE TALK

An American writer tells in his notes of his visit with Robert Browning in Italy. He said that "he talked a wonderful quantity in a little time." I believe that we all have experienced meeting people who talked like that. People probably gave thought to that when they sat around listening to the great Dr. Samuel Johnson.

Tennyson and Carlyle were good friends and used to visit each other and sit for hours smoking their pipes saying next to nothing. I have an idea however, that there was a deal of "wonderful quantity" of thought between them at each visit.

Where there is substance to good talk it can be given in very little time, and that talk is long remembered. I recently met an old acquaintance who accosted me and talked—without saying a single thing that was worth listening to or remembering. Not long ago, however, I met Robert Frost, our greatest poet, at a friend's home, and everything that he said was worth remembering, for he was like Browning, who "talked a wonderful quantity in a little time."

There was substance to that brief address by Abraham Lincoln at Gettysburg, but it took time for the world to realize it. It was great because it came from the heart, and had feeling, as all great expression has. At that same celebration there was Edward Everett, who talked a "wonderful quantity," but for a long time, something like two hours! And that speech is remembered by no one, much less read.

Harriet Monroe, who did so much to stimulate interest in poetry in America, early fell under the spell of Stevenson and looked forward to the time when she might meet him face to face. After long waiting her dream came true, and she was invited to meet him, at a time when his physical forces were gravely on the decline. But the poet was given 15 minutes in which to concentrate her visit. Sadly she was disillusioned that so great a writer should be housed in such a precarious physical frame, but the quantity of talk in that brief time was something to be recorded and remembered, and it was.

In my youth I heard an inspiring lecture by a noted speaker on many phases of science. I recall one sentence: "It is serious business to start a soul voyaging toward Eternity. Thoughts are deeds, and may become crimes."

Tomorrow Mr. Adams will talk on the subject: "People Who Soothe."

Just Folks

OPENING GAME EXCUSES
When I was just a growing lad
(At heart I think I'm still the same)
I told a story false, but sad,

I buried grandmas many a year
And Aunt Maries and Uncle Joes,
Without a sigh, without a tear,
And all without a single rose.

The funeral tale I use no more,
Although at heart I'm still the same.

I have a happier reason for
Attending at the opening game.

Though fond of baseball still am I,
A grandpa with a silvered brow,
I use this old man's alibi:
"I have to take my grandson now."

Hitler Offers to Scrap Subs: Berlin, May 22 (AP)—Adolf Hitler, clearly on the defensive, told the former allies Tuesday night Germany would abide by all but the military sections of the Versailles treaty and would limit armaments with them even to the scrapping of submarines.

In an impassioned address to the specially assembled Reichstag Hitler denounced the Versailles treaty as responsible for Europe's armament race.

Many scientists classify this as an era of electronics, successor to the industrial turnover that came in the previous decade.

CADILLAC... "I use nothing but New Blue Sunoco in my 1949 Cadillac. I've tried a number of premium gasolines, but nothing can stand up to New Blue Sunoco for anti-knock power, mileage and all-round performance. New Blue Sunoco is also the only gasoline I use in all my wholesale meat delivery trucks."—JACK L. BIREN-KRANT, Alden Park Manor, Detroit, Mich.

CHEVROLET... "I like the smooth power of my car since I've been using New Blue Sunoco. And I also appreciate the fact that I save money with every tankful."—JANE LYLES, 1531 N. W. 29th Court, Miami, Fla.

Sensational new high-test gasoline scores greatest sales in Sun Oil history!

ON APRIL 12th we introduced a new gasoline... New Blue Sunoco.

In the week that followed more people bought Sunoco gasoline than in any previous week in our history.

New Blue Sunoco sales in April and May to date are our biggest gasoline sales on record.

Why is this?

This sales record is made possible because motorists have been quick to realize that they get more for their money with our new Blue Sunoco. Designed for the new high-compression engines, this sensational new high-test gasoline puts new life into every car on the road. Ranking among the best gasolines in the

nation, it actually saves you up to 2¢ a gallon over premium-priced gasolines!

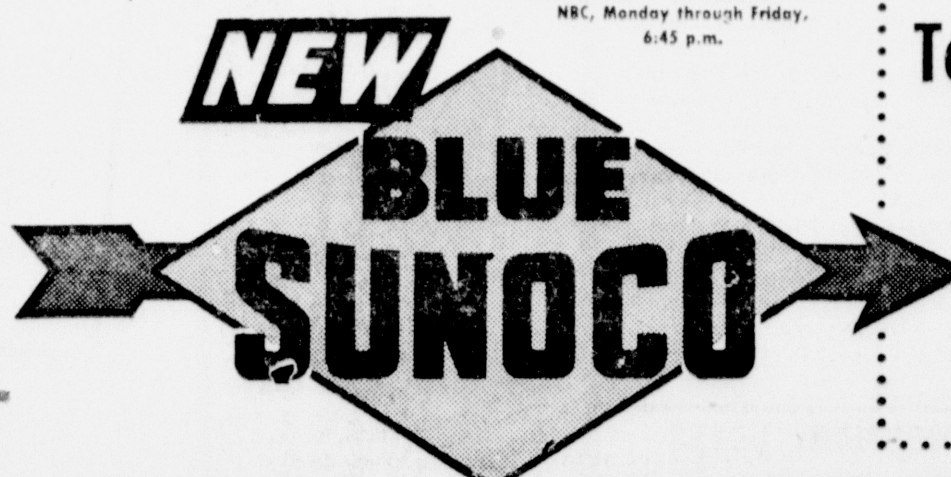

And here is the explanation

Sun Oil Company makes only one grade of gasoline. No second or third grade... only high quality, high-test New Blue Sunoco. Our policy of mass production and distribution means that we can pass enormous savings on to the consumer... savings on pumps, tanks, trucks, warehouses, pipelines, barges and refineries.

That's why you get sensational high-test performance at regular gas price when you buy New Blue Sunoco.

No gasoline gives you more miles per gallon than New Blue Sunoco. Try ten gallons in your car and prove it to your own satisfaction!

Seven Arrested In Counterfeiting Plot

New York, May 26 (AP)—Seven men and an attractive blonde have been seized in a crackdown on an alleged \$3,000,000 counterfeit smuggling ring supposedly linked to a Caribbean revolution plot.

The fantastic scheme, according to an authoritative source, was to sneak \$3,000,000 in bogus U. S. bills into Cuba's national treasury, exchange them for good Cuban money and then finance a revolt in the Dominican republic.

The blonde and four men were arrested here and one man was apprehended in Miami yesterday. Two Cubans were held in that country.

An indictment returned by a Federal grand jury here alleged a conspiracy to buy money from a big American counterfeit ring. They did not mention the reported Dominican revolution connection. The indictment named the two Cubans as plotters.

MICAH'S HOPE OF GOD'S SALVATION

Micah 4:1-5; 5:2-4; 7:18-20

Memory selection: Who is a God like unto thee, that pardoneth iniquity...? He retaineth not His anger forever, because He delighteth in lovingkindness. 7:18.

The key word of today's lesson is

hope. Micah surveyed the character and conduct of his generation and found much to be condemned. But when he considered the character of God and His attitude towards His people the prophet saw a glowing future. The Lord has a plan and in the end it will be realized; His people will live in comfort and security.

The judgments of God which Micah pronounced upon the people and governments of his time were true and righteous altogether. Breaking Divine laws brought disaster upon nations and stern rebuke upon individuals. History furnishes numerous examples of that. Nor is drastic judgment confined to the past. Nations and men still are measured by moral laws and justify or condemn themselves accordingly. But, while God is a God of justice, He is also a God of mercy. These two characteristics are seen in the teachings of the Bible, and in the dealings of God with man. It is not always easy to reconcile the two elements in God but they are there.

"For the love of God is broader Than the measure of man's mind. And the heart of the Eternal Is most wonderfully kind." Micah did not say that the comfortable condition of every man under his own fig tree came about without man's cooperation. There was a "flow" of people of people to Zion for worship, and that implied repentance. It was like the Prodigal Son coming home after his wasteful experience. The mercy of God is conditioned upon a man's change of heart, and a resolve for a new and better life.

Resolutions not Enough
Micah envisions God and man working together. God has a plan

and uses human instruments in carrying it out. And He requires more than mere wishing, or even praying and resolutions. Swords are not beat into ploughshares by hoping. Enough resolutions have been passed by church and other groups to prevent threatening wars for all time. But they must be followed by earnest endeavor. The United Nations is a present attempt to put into practice what all men of goodwill desire—a warless world. Many factors enter into the successful issue of a peace that will endure, and they require patient and persistent study. It is devoutly hoped that nations working together may be an instrument

(Please Turn to Page 6)

You Ought to do it!

You ought to put into real action that long-felt desire to do something that will help others.

We all have that desire—all but the very selfish. We would like to serve. But where? How?

One of the contributions which our churches make to the life of this community is in providing countless opportunities for valuable service.

Can you sing in a choir? Teach a class? Lead a youth group? Visit a shut-in? Pack a gift basket? Paint a Sunday School room? Mend a choir gown?

These are humble, yet valuable services. They won't make you famous, but they'll make you a better person. And they'll help others discover the true riches in life.

You ought to do it! You ought to join a church... and find the service that you can render!

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Sunday School Lesson

(Continued From Page 3)

God can use to advance His plans. Another agency which might be more effective in promoting God's plan is the church. Its history is not free of faults. One has been in the matter of competition, and lack of cooperation. But there are heartening indications of a better day. The World Council of Churches organized two years ago in Amsterdam is one such sign. A sentence in the Council's declaration of faith seems to echo what Micah predicted: "The end of history will be the triumph of His Kingdom, where alone we shall understand how much God has loved the world." That is the solemn expectation of a reawakened church.

Greater event has cheered the followers of Jesus Christ than this world wide organization of Christian forces. Micah, like Isaiah and others, believed firmly that in God's own time and in accordance with His plan, would come a Messenger full of grace and truth. The insignificant town of Bethlehem would be His birthplace, but He would "be great unto the ends of the earth." And we may add, to the end of time. Jesus was a disappointment to those who had expected a leader of the kind they knew, but became more powerful than any of them. But it was not by might nor by power, but by the spirit of God that the hope of mankind would become a reality. And that spirit was one of unceasing love and unselfish service. Add to that the quality of mercy and we learn the way of salvation for the individual and for society.

Our prophet of the week had a vision of every man under his fig tree. What we see is millions of men living amidst the rubble, the aftermath of a relentless war. Must this ever happen again? Not if the love which God holds out to man as a free gift is also freely given by man to man. Such love is not easily demonstrated in the hectic life of our times, but we can at least hope for the eventual coming of God's Kingdom among us on earth.

"Hope like a glimmering taper's light Adorns and cheers the way; And still as darker grows the night Emits a brighter ray."

rank in spelling out.

Dr. Harold V. Anderson, professor of chemistry, has a list of 68 ways the word nucleus can be misspelled. It runs from such reasonable variations as "neuchus" and "nuclus" to exotic sports like "neucleous" and "neucleus's."

The professor has compiled his list over the last 25 years. Most of it was contributed in student papers. But the rest comes from correspondence with the master minds of science in research and industry.

Washington, May 26 (AP)—The United States, Britain and France have announced a joint agreement to supply arms to the middle east — for defense alone. President Truman hailed it as a move to stimulate "increased confidence in future security" in that area.

The President expressed this view in a statement commenting on the three-power accord reached at London during the foreign ministers conference early this month.

DOUG DENIES GEM TREASURE

Tokyo, May 26 (AP)—General MacArthur's chief of staff flatly denied Thursday that his boss has an oriental treasure chest.

Maj. Gen. E. M. Almond issued one of his rare statements after a day-long study of Washington reports that MacArthur held a key to a chest full of gold and jewels. Almond said there is no similarity

between occupation headquarters' holdings of impounded property and the reported chest.

Almond did not report how much headquarters holds, and no other source ever has announced it.

Riches In Vault

Earlier, lacking official comment, it was assumed the "chest" report was based on impounded property in the Bank of Japan.

At least its vaults hold untold riches in precious gems and metals

put there by General MacArthur's occupation forces.

Maybe that's what former Secretary of War Robert P. Patterson was talking about when he told a House Interstate and Foreign Commerce subcommittee of a fabulous treasure chest to which MacArthur had the key.

Anyway, if it isn't the Bank of Japan, the Army hereabouts showed no inclination today to let the congressmen in on the secret. A Wash-

STATE DEPT. IS SKEPTICAL OVER LIE'S OPTIMISM

By JOHN M. HIGHTOWER

Washington, May 26 (AP)—State Department officials view with deep skepticism the report from U. N. Secretary General Trygve Lie after a visit to Moscow, that constructive negotiations to end the cold war are possible.

No one on Capitol Hill came forward, either, to say that Lie is correct. Rep. Faxon (R-N.J.), top Republican on the House Foreign Affairs committee, said that he hopes Lie is but "nothing has shown any reason to believe Russian promises."

Diplomatic advisers seem entirely convinced that at this time and for the foreseeable future neither side in the cold war is prepared to make the concrete concessions or compromises which in their view might lead to a true East-West settlement. Moreover, they believe that, barring a major change on one side or the other, a top level international meeting would bring little if any relief from the present tensions of political conflict.

They predict, however, that if Lie succeeds in getting consent for a special meeting of the United Nations Security Council, to be attended by foreign ministers of the member nations late next summer, Secretary of State Acheson will be on hand.

Little is known, even in the inner circles of the government here, of Premier Stalin's reaction to Lie's peace-making proposals when the two met ten days ago. According to diplomatic reports, as yet officially unconfirmed to the American government by Lie, Stalin was non-committal, although as Lie has indicated publicly, he did not close any doors on future developments. Lie, who left England by plane

yesterday after issuing a statement on his trip, is due in Washington next week to see Mr. Truman and Acheson. He is expected then to give them an account of his talks with Stalin and with British and French leaders.

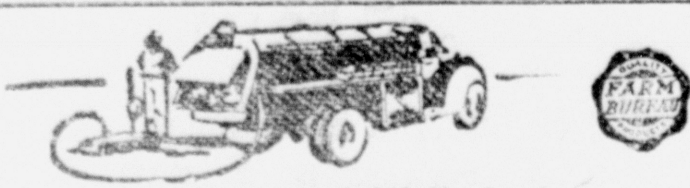

Coming To Washington In his statement he said that "I return to the headquarters of the United Nations with the belief that the possibility of constructive negotiations exists."

He cautioned that the results of his views cannot be judged, however, except as they become apparent during the next two or three months.

Washington, May 26 (AP)—Spurred by Democratic grumbling over oil imports, a new Republican attack on the administration's foreign trade program is in the making on Capitol Hill.

Senator Millikin of Colorado, who heads the conference of all GOP senators, told a reporter that before this congressional session ends the senate will get a new chance to vote on the so-called "peril point" amendment to reciprocal trade agreements.

Carroll Shoe Expands Into New Lines

Below are shown products of the Carroll Shoe company, Littlestown, which has been expanding its lines for several months. New stadium boots have come into prominence and the Carroll line is being acclaimed by buyers. Some of the products are all rubber while others are of leather and rubber. The lower photo shows the recently completed warehouse at the rear of the shoe factory.—(Photos by The Lane Studio).

Carroll Shoe, One Of County's Leading Industries, Expanding With New Lines Of Footwear

In two more weeks, on present production schedules, one of Adams County's major industries, the Carroll Shoe company of Littlestown, will have manufactured a million pairs of women's sandals thus far this year. Next year's schedule calls for a million and a half by the same date, June 9.

This is only a part of the production at Carroll Shoe, however, which has recently embarked upon the manufacture of rubber and composition soled shoes with leather uppers, and is soon to start on a new line of stadium boots for women, using both rubber and leather uppers.

The company recently completed a 45 by 250 foot warehouse at the rear of its existing plant on Newark street, Littlestown, and from this warehouse is shipping between 15,000 and 20,000 pairs of shoes daily. A large number of these represent the past winter's production, but the present 407 employees, including 356 at the Littlestown plant, 41 at Arendtsville and 10 at Benderville, are turning out 9,000 to 10,000 pairs daily.

90,000 Square Feet.
The new warehouse, which is of frame and sheetrock construction, adds 11,250 square feet of floor space, and brings the total of the Littlestown plant to 90,000 square feet. Robert J. Kenworthy, Gettysburg, is the manager.

In production now is a new type of "loafer" with crepe rubber soles and suede uppers which is proving popular with the trade and is being shipped in large numbers. The "loafers" come in three shades, beige, brown and navy. A special process is used in their manufacture. Soles are vulcanized, 2,000 pairs of shoes at a time, for an hour and a half at 280 degrees temperature and at 35 pounds pressure. The stadium boots are fleece-lined and made in both rubber and leather. Those with the leather tops utilize elk or suede. Most of them are two-tone in color.

Special Process.
Like the "loafers" and other shoes, the soles are moulded by a special process. The suede tops come in brown and navy and the elk tops in tan.

The vulcanized construction, according to Mr. Kenworthy, makes Carroll-manufactured shoes and other footwear 30 per cent lighter than an ordinary shoe and the soles are waterproof. In some, cork is used with rubber in the soles.

The Carroll Shoe Company plans a heavy production schedule this summer, when production ordinarily slows down. The Cambridge Rubber company, of Taneytown, parent

company of Carroll, recently acquired the rights to the trade names "Stadium," "Sun Valley" and "Lake Placid" boots and these types are now being made exclusively by Carroll.

New Summer Line.
Another of the Carroll Shoes, and a line which has been featured in Cambridge Shoe advertisements in Esquire, is the "Tred-lite" line of summer footwear for men. Styles recently featured in Esquire include the "Jockey," with cushion rubber soles, and the "Gangway," which has the same cool construction but with crepe soles.

Shoes made by Carroll are sold in most of the leading shoe stores in the United States.

Stores To Close For Memorial Day

Samuel H. Hinzinbotham, president of the Littlestown Chamber of Commerce, has announced that the stores of Littlestown will be closed all day on Tuesday in observance of Memorial Day. He also announced that the stores will also be closed Wednesday afternoon, May 31.

In observance of Memorial Day, the Littlestown State and National banks and the State Liquor store will be closed on Tuesday.

Clarence L. Schwartz, postmaster, has announced that there will be no window service at the Littlestown post office on Tuesday. Neither

ANNIVERSARY EDITION OF LITTONIAN OUT

The 25th anniversary edition of "The Littonian," official yearbook of the senior class of the Littlestown junior senior high school, was distributed to the students several days ago. This anniversary edition is dedicated to H. Dean Stover of the faculty. The dedication reads: "We, the class of 1950 respectfully dedicate this annual to Mr. H. Dean Stover for his wise counsel and patience as our faithful friend and adviser."

Items included in this annual are: picture of Mr. Stover; a history of Littlestown high school, together with pictures depicting the various stages of progress. A section is devoted to administration including pictures of the boards of education and the joint executive committee as well as the picture of supervising principal, Paul E. King.

Throughout the volume there are snapshots showing the various activities of the school. It contains a picture of the senior class officers; a group picture of the class as it was in 1946 and the individual pictures of the graduates as well as the class history, class will, class song, class prophecy and statistics.

Extra Copies Available
The Littonian staff is pictured. An

interesting page of baby pictures of the seniors appears. Every class and activity of the school is reviewed in story and pictures. At the close of the volume is a page, containing two pictures, which bears the caption, "First to come; last to go!" They are the pictures of Ralph Unger, janitor, and the school cook, Mrs. Dorothy Unger.

Garnet E. Schellhase, faculty adviser, has announced that "since this is the 25th anniversary edition, extra copies have been made which are on sale for \$2 a copy. Anyone wishing a copy is asked to call the high school and his copy will be delivered."

The yearbook staff consists of: Richard E. Wolfe, editor-in-chief; Charlotte Yingling, assistant; Eleanor Harner, Jane Miller, Loyse Waltman, Gloria Warner and Jean Wolfe, associate editors; Betty King, art editor; Alma Reaver, sports editor; Glenn Dutcher and Harriet Badders, photographic editors; Evelyn Harget, business manager; June Miller, assistant; Bernice Plunkert, advertising manager; Jackie Baughman, Norma Ecker, Jane Reigle, Shirley Weikert, typists; and Garnet E. Schellhase, faculty adviser.

Rev. Fr. Lavelle Is Home From Rome

The Rev. Fr. George A. Lavelle, pastor of St. Aloysius Catholic church, Littlestown, and the Rev. Fr. Chester T. Loszewski, superintendent of the Paradise Rectory, near Abbotstown, returned home on Wednesday after six weeks on the Holy Year pilgrimage to Rome. Leaving La Guardia field on April 12, they flew to Portugal, where they spent several days and then went to Rome. They also visited Lourdes, Paris, Nevers, Lisieux in France. Returning home, they departed from Shannon airport, Ireland, and 12 hours later were in New York city.

Take it out Beyond the BOULEVARDS

SPRING FEVER? Here's the never-failing cure — a Buick SUPER Convertible with that brilliant new power plant, the Fireballing F-263.

That's where the real fun is.

Where the land stretches free to the beckoning horizon, where the air is clear of city smoke and the highway's fumes, where a man and his family can really enjoy the pleasure a car can give.

"But the roads," you say, "— aren't they pretty rough?"

They don't have to be paved to be pleasant. Not to a Buick owner.

For here you've a car gifted with the special gentleness of soft coil springing all around. A car steady-keeled with a massive frame and rigid torque-tube.

A car that quicksteps silkily over washboards and rutty gravel, gives wavy black-top a fluent buoyancy that dresses each mile in rest and relaxation.

Even your mighty power plant — cradled

against vibration and filtering its surge through Dynaflo Drive's* liquid cushioning if you like — even this is part of the picture.

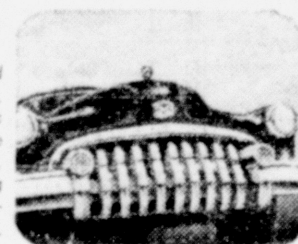

A part of the special feel of riding in a Buick — a feel we do not think is equaled anywhere else on the highway.

But why just go by that? As close as your Buick dealer there's a SPECIAL, a SUPER or a ROADMASTER that's itching to tell its own story — without any obligation on your part.

Go try it — over the boulevards and out be-

yond them. Then price it. We're sure where you'll spend the summer — having the time of your life in a Buick!

Only BUICK has Dynaflo — and with it goes! HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) • NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.
